Re: Notice of Temporary Mobilization of LNG Equipment
Old Mill Lane, Portsmouth, June 2-9, 2021

Dear Ms. Rodvien,

Pursuant to the Rhode Island Energy Facility Siting Board Order No. 147, at 11 n.5, the Company is hereby providing notice that it will be mobilizing liquified natural gas ("LNG") equipment at its property located at Old Mill Lane, Portsmouth (the "Facility") to support the natural gas supply to Aquidneck Island. This mobilization is needed as a backup supply to the natural gas system during the transmission pipeline owner's scheduled inspection of the lateral pipeline that supplies the Island. Attached as Exhibit A is a copy of the notice dated May 24, 2021 ("Notice") that was supplied to Rhode Island Public Utilities and Carrier Division pursuant to the requirements of 49 CFR §193.2019. As stated in the Notice, the Facility will be operated between June 2-9, 2021. Provided there are no capacity constraints from the pipeline inspection, the Facility is only expected to be on standby during the day.

Consistent with previous mobilizations, the Company has reviewed the upcoming mobilization with the town administrators and emergency responders for the Towns of Portsmouth and Middletown. On May 25, 2021, the Company mailed notice to the abutters of the upcoming mobilization. Attached as Exhibit B is a copy of the letter that was sent to the abutters. Site setup is expected to commence this week, and once the equipment is delivered, security will be present 24/7.

Please contact me with any questions or comments.

Regards,
